

# Collaborative Stage (CS) Coding Instructions, v0203

## Online Help Installation Instructions

### System Requirements

The program works with 32- and 64-bit Microsoft® Windows® operating systems on x86-compatible processors. The minimum hardware requirements are the same as those of the Microsoft Windows operating system used.

Additional system requirements include—

- Microsoft Windows operating environments: 98/2000/XP/Vista/7.
- 512 MB RAM.
- Latest version of Microsoft Internet Explorer (recommended).
- 200 MB of free hard-disk space.

### Installing or Updating Online Help CS Coding Instructions

Before you install or upgrade the CS Coding Instructions Online Help, please read the following information.

- CS Coding Instructions Online Help is not designed to upgrade automatically via the Internet.
- If someone else is responsible for maintenance of your computer, you may not be able to install software. In this case, consult the maintainer of your computer for assistance. If you are using Windows 2000 or Windows XP, you must be logged on as the administrator.
- If you are upgrading or reinstalling an existing version of CS Coding Instructions Online Help, uninstall the existing online help program.
  - From the Windows Control Panel, choose Add/Remove Programs.
  - Select CS Coding Online Help.
  - Click the Change/Remove button.
  - Click Next; then Remove; then Next in succession on the resulting dialog boxes, and respond to any further prompts that appear.
  - If you receive a message during the uninstall process about deleting shared files, choose not to delete any shared files.
- Delete all files in the folder in which the previous version was installed; then delete the folder.
- If you are installing CS Coding Instructions Online Help for the first time, you may install it on the drive and folder of your choosing; however, you cannot install it on a network drive. CS Coding Instructions Online Help must be installed on a local drive of your choosing.

### Installation

1. Download Online Help, CS\_Coding\_Online\_Help\_V0203.exe (executable file, 10.6 MB, February 17, 2012) to your computer.
2. Open the downloaded file. The installation program will direct you through the steps for installing CS coding Online Help. If you are a first-time user, we recommend you select the defaults.
3. When installed, double-click the CS Coding Online Help icon on the desktop.
4. Select a tab from the pane on the left side of the window:
  - **Contents:** Select this tab to browse the manuals included and to view the order of topics. Open the Table of Contents for a manual by double-clicking on its book icon.
  - **Index:** Select this tab to search for a topic that has been indexed. Type a search term and press Enter, or double-click a search term in the index.

- **Search:** Select this tab to perform a full-text search for a term that has not been indexed. Type the search term; then press Enter or click the List Topics button.
- **Favorites:** Select this tab to bookmark favorite topics for fast retrieval.

CS Coding Online Help appears in a browser window using the standard Microsoft® HTML Help interface, with selected features enabled by third-party tools. For technical support on features and behavior of HTML Help, consult Microsoft HTML Help documentation.
